INDEX.

Vol. III. Experimental Wireless & The Wireless Engineer 1926.

I. GENERAL INDEX.

(N.B.—The figures in parentheses, following the subject, refer to the Dewey Decimal System of Classification, see Index III).

PAGE

Abstracts of Technical Articles from the world's wireless journals, 54, 121, 189, 253, 325, 381, 451, 508, 567, 635, 699, 765 ... ...
Absolute Measurement of Resistance at Radio Frequencies (R240). R. M. Wilmotte 725
Accumulator, A new Theory of the Lead (621.355.01). Prof. G. W. O. Howe ... 466
Accumulator, A new Theory of the Lead (Correspondence) 646
A.C. Filament Supply (Patents) 126
Aerial Separation (Patents) 196
Aerials, Wireless, and the Landlord (R540.07) By a Barrister 433
Aerial Plate (Patents) 463
Aerial, An Interesting Frame (Patents) ... 582
Aerial, An Underground (Patents) 775
Alignment Charts for Selective Amplifiers (Ro82). W. A. Barclay 344
Alignment Principle (Correspondence) ... 119
Amateur DX in South America by CH.9TC. (R545.009.2) 108
Amateur Radio Telegraphy (R.350) K. S. Wakefield 175
Amateur Long-Distance Work (R545.009.2). H. N. Ryan 563, 710
Ammeter, Multi-range, of Constant Resistance (R384.6). L. G. A. Sims and M. Heywood Hunt 425
Ammeter Panel (R251), E. C. Atkinson ... 544
Among the Experimental Transmitters (Ro09.2) 53, 214, 270, 424
Amplification Scheme (Patents) 464
Amplification and Selectivity of a Neutralised Tuned Anode Circuit (R161 and R162), Dr. N. W. McLachlan 545
Amplifier, Crystal (Patents) 776
Amplifier, Low Current Resistance (Patents) 647
Amplifier, Peculiar (Patents) 712
Amplifier, Radio-frequency (Patents) ... 648
Amplifier, Resistance (Patents) 776
Amplifier, Stabilising (Patents) 713
Amplifier, Stabilised, Another (Patents) ... 714
Amplifiers, Alignment charts for selective (Ro82), W. A. Barclay 344
Amplifiers, Examination of the Properties of Audio-frequency (R132), W. Baggally 628
Amplifiers, Examination of the Properties of Audio-frequency (Correspondence) ... 707
Amplifiers, Audio-frequency (Patents) ... 468
Amplifiers, Four-Electrode Valve (Patents) 333
Amplifiers, Peculiar Patent (Patents) ... 62
Amplifiers, Performance of (R342), H. A. Thomas 15
Amplifiers, Push-Pull (Patents) 335
Amplifiers, Selective (Correspondence) ... 118
Anode Current from Mains (R355.007.5) ... 416
Another " Round " Loud-speaker (Patents) 261

PAGE

" Aperiodic " or " Untuned " (Correspondence) 393, 518
Atmospheric Elimination, A System of (Patents) 398
Atmospheric Elimination, Note on a system of (R431), S. Butterworth 618
Atmospheric Elimination (Patents) 711
Atmospherics, Directional Recording of (R114, R125), R. A. Watson Watt ... 234

Battery, A Floating (Patents) 775
Beam Service, Inauguration of the Canadian (Editorial) 715
Berlin Wireless Exhibition (Ro64) 653
B.E.S.A. Glossary of Terms used in Electrical Engineering (Editorial) 587
B.E.S.A. Glossary of Terms used in Electrical Engineering (Review) 612
Beverage Aerial (Correspondence) ... 117, 258
Binding Case and Index 151
Book Reviews and Books Received:
B.E.S.A. Glossary of Technical Terms ... 612
British Standard Glossary of Terms used in Electrical Engineering 507
Der Detektor, Dr. R. Lehnhardt 395
Dictionary of Wireless Technical Terms 709
Die Audionröhre und ihre Wirkung, Dr. G. Liebert... 321
Electrical Engineers' Data Books... ... 321
Elimination of Interference in W/T, M. Singlemann 395
Loud-speakers, C. M. R. Balbi 395
Modern Printing Telegraphy 395
Modern Radio Communication, J. H. Reyner 395
Oscillographs, J. T. Irwin 321
Proceedings of the Wireless Section of the I.E.E. 395
Slide Rule Simplified, D. E. Rogers ... 395
Variations of Apparent Bearings of Radio Transmitting Stations, Radio Research Board 507
Wireless Annual for 1926 40
British Wireless Exports 151
Broadcast Station, Germany's High Power (R616.5) 411
Broadcast Receiver Design, Problems in (R160.04), Capt. P. P. Eckersley ... 499

Calibration Department 51
Calibration Department (Editorial) ... 65
Calibration Department (Temporarily closed) 518
Calibration of Ultra Short Wavelengths (R213), F. Aughtie 633
Canadian Beam Service, The Inauguration of (Editorial) 715
Capacity Lead-in (Patents) 125
Carborundum Detector, Another (Patents) 521
Cathode Ray Reception (Patents) 332

PAGE

Cathode Ray Tubes (Editorial) 525
Cause and Elimination of Night Errors in Radio Direction-Finding (R510), R. L. Smith-Rose and R. H. Barfield ... 367
Circuit, Crystal-Valve (Patents) 777
Circuit, Four-Electrode Valve Supersonic (Patents) 650
Circuit, Interesting Neutralised (Patents) ... 584
Circuit, Reaction Rejector (Patents) ... 775
Circuit, Super-Regenerative (Patents) ... 582
Circuit, Valve Generator (Patents) 584
Coils, Nick-o-Time Tunometer (R382.009) 300
Common Errors in Condenser Calculations (R127.2), E. H. W. Banner 556
Compensating for Distortion (Patents) ... 262
Condenser, Calculations, Common Errors in (R127.2), E. H. W. Banner 556
Condenser, Differentially-Operated (Patents) 198
Condenser, Newey (Patents) 264
Condenser, Permanency of Calibration of a Variable (R220), E. Simeon 348
Condenser, Potentiometer (R381.5), E. Bainbridge Bell 282
Condenser, Power Loss in (R145.5), L. Hartshorn 225
Condenser, Power Loss in (Correspondence) 324, 392
Condenser, Screening of Small Variable Air (Correspondence) 58, 117
Condenser, Variable Air, Notes on the Laws of (R381.4), W. H. F. Griffiths ... 3
Condenser, Variable Air, Further Notes on the Laws of (R381.4), W. H. F. Griffiths 743
Cone, Double (Patents) 595
Constant Beat Frequency (Patents) ... 398
Constructing a Self-Contained Ballistic Galvanometer (R384.6), F. A. Boyce ... 440
Control of Filament Current (Patents) ... 262
Controlling Regeneration (Patents) 197
Controlling A Continuous-Wave Generator (Patents) 335
Correlation of some recent advances in Wireless (R010), Balth. van der Pol ... 338
Correspondence, 57, 117, 188, 258, 323, 390, 460, 517, 579, 645, 707
Crystal Patent, An Interesting (Patents) ... 650
Crystal, Frequency Stabilisation of Transmitter by means of Oscillating Quartz (R351), C. W. Goyder 717
Crystal Amplifier (Patents) 776
Crystal-Valve Circuit (Patents) 777
Crystal-Controlled Receiver (Patents) ... 778
Curves and Tables for Short-Wave Calculations (R080.127.3), A. P. Castellain ... 46

Dame Melba's Farewell (Correspondence) 188
Department of Scientific and Industrial Research (R218) 531
Detachable Grid-Leak (Patents) 260
Detachable Panel Legs (Patents) 332
Detection with a Four-Electrode Valve (Patents) 128
Detector, Another Carborundum (Patents) 521
Diaphragm, A Double Cone (Patents) ... 199
Diaphragm, A Reinforced (Patents) ... 264
Diaphragm, a Multiple-Cone (Patents) ... 463
Diaphragm, A Polygonal (Patents) 334
Diaphragm, A Conical (Patents) 464
Differentially-Operated Condenser (Patents) 198

PAGE

Direct Current Smoothing Devices for H.T. Supply (Editorial) 65
Direct Current Test Set (R384), T. S. Skeet 553
D.C. Instruments in Wireless Receivers (R251), J. F. Herd 565
Directional Recording Atmospherics (R.114, R125), R. A. Watson Watt 234
Direction-Finding, Cause and Elimination of Night Errors (R510), R. L. Smith-Rose and R. H. Barfield 367
Disturbance Eliminator (Patents) 260
Distortion, Compensating for (Patents) ... 262
Double-Cone Diaphragm (Patents) 199
Double-Filament Rectifying Valve (Patents) 399
Double Earth Receiving System (Patents ... 519
Double Filament Valve (Patents) 520
Double Cone (Patents) 585
Dubilier Loud-speaker (Patents) 262
Duplex Signalling (Patents) 522
DX Work with a Receiving Valve (R545.1), A. D. Gay 477

Earth Connections, Multiple (Patents) ... 648

I.E.E. Wireless Section of the (Editorial) ... 65
I.E.E., An Announcement (Ro60) ... 115
I.E.E., Opening of the Session (Ro60), Dr. Eccles' Address 724
I.E.E., Wireless Section. Papers read:
Audio-Frequency Measurements (R290 ... 370
Chairman's Address (Ro60) (Abstract) ... 121
Cause and Elimination of Night Errors in Radio Direction-Finding (R510), R. L. Smith-Rose and R. H. Barfield (R510) 367
Directional Recording of Atmospherics (R114, R125), R. A. Watson Watt ... 234
Frequency Variations in Thermionic Generators (R344.2), Lt.-Col. K. E. Edgeworth 101
Instantaneous Direct-Reading Goniometer (R114, R125), R. A. Watson Watt and J. F. Herd. 239
Low-Frequency Intervalve Transformers (R132.1), P. W. Willans 435
Past, Present and Future Developments of Wireless Telephony (R550), Capt. P. P. Eckersley 114
The Propagation of Radio Waves (R113), J. Hollingworth 178
Wireless Development since the War (R599), Dr. W. H. Eccles 740
Improving Selectivity (Patents) 778
Impulse Excitation Generator (Patents) ... 582
Inauguration of the Canadian Beam Service (Editorial) 715
Inductance of Straight Wires (Editorial Views) 1
Inductance, A Spaced (Patents) 264
Inductance Coils, Effective Resistance of at Radio Frequency (R144), S. Butterworth 203, 309, 417, 483
Inductance Coils, Losses in (R143), S. Butterworth 267
Inductance Coils Quantitatively Compared (R240), A. L. M. Sowerby ... 220, 363
Inductance Coils, Quantitatively Compared (Correspondence) 461, 518, 581
Instantaneous Direct-Reading Radiogoniometer (R114, R125), R. A. Watson Watt and J. F. Herd 239
Insulating Material (Patents) 60
Interesting Frame Aerial (Patents) 582
Interesting Neutralised Circuit (Patents) ... 584
Interesting Crystal Patent (Patents) ... 650
International Morse Code 482

PAGE

Intervalve Couplings, Some Notes on (R132), H. L. Kirke 350
Introducing Sodium and Potassium into Discharge Tubes (R535.3), J. Taylor ... 762

j, the Heaviside Operator and $\sqrt{-1}$ (Correspondence) 394, 462

Keying Transmitters (Patents) 263
Keying of Valve Transmitters (R385), W. T. Ditcham 526
"Kone" Loud-speaker (Patents) 126
Königswusterhausen Broadcasting Station (R616.5) 411

Laboratory, An Experimenter's Wireless (R201), L. A. Sayce and J. Taylor 69, 144
Laboratory Notes (R387 and R381.5), E. Bainbridge Bell 282
Light, Electrical Control of (Patents) ... 713
Logarithms, Common or Natural (Editorial Views) 1
Long-Distance Work (R545.009.2), H. N. Ryan (5BV) ... 52, 109, 249, 308, 380, 563, 710
Long and Short Waves, The Relative Values of (R040), R. S. G. B. Discussion ... 692
Lorenz High-Frequency System for Radio Transmission (R421), F. W. Gillard ... 215
Losses in Inductance Coils, The Need for a Standard of Efficiency (R143), S. Butterworth 267
Loud-speaker, Another "Round" (Patents) 261
Loud-speaker, Dubilier (Patents) 262
Loud-speaker, Eddy Current (Patents) ... 582
Loud-speaker, Electro-Dynamic (Patents) ... 336
Loud-speaker, Elliptical Diaphragm (Patents) 648
Loud-speaker, "Kone" (Patents) 126
Loud-speakers, Method of Calibrating (R290), H. J. Round 604
Loud-speakers (R376.3), N. W. McLachlan 152
Low-Current Resistance Amplifier (Patents) 647
Low-Frequency Intervalve Transformers (R132.1), P. W. Willans 435
Low-Loss Coil Former (Patents) 261

Magnetic Component, Utilising the (Patents) 199
Mains Units, Voltage Regulation of (Patents) 712
Mains Receiver (Patents) 777
Maintaining Constant Frequency (Patents) ... 399
Makeshifts (Correspondence) 581
Mathematical Articles (Editorial) 250
Mathematics for Wireless Amateurs (510), F. M. Colebrook ... 283, 373, 446, 493, 559, 613, 674, 756
Measurement of Resistance at Radio Frequencies, the Absolute (R240), R. M. Wilmotte 725
Melba, Dame N., Farewell Letter 188
Mercury Contact Switches and Connecting Boards (R387), T. B. Baker 317
Method of Calibrating Microphones and Loud-speakers (R290), H. J. Round ... 604
Microphone, An Electrostatic (Patents) ... 336
Microphones and Loud-speakers, Method of Calibrating (R290), H. J. Round ... 604
Microphone, A Reisz (Patents) ... 463, 777
M-L Intervalve Coupling (Patents) 397

PAGE

Modified Igranic Transformer (Patents) ... 260
Multiple Variometer (Patents) 521
Multiple Earth Connections (Patents) ... 648
Multi-Range Ammeter of Constant Resistance (R384.6), L. G. A. Sims and M. Heywood Hunt 425
Mystery of Fading (R113.1.009), Oliver Hall 211
Mystery of Fading (Correspondence) ... 393
